Projects

Converters Logo Design - In this project I was tasked with creating a logo and mockups for a rock band for people ages 25 to 60. Used lots of research and targeted marketing to create the logo and mock-ups.

Graffiti Infographic - Tasked with making an info-graphic on any topic of our choosing. I enjoyed this creative freedom and created a visually appealing infographic on the history of graffiti.

Fortune Favored Website - We designed and created a company/logo for a product brand of our choosing. This included lots of product photography, image masking, as well as creating a website layout.

Education

Associate's Degree in Computer Science/Graphics, Multimedia, and Web-Design from New England Institute of Technology

High School focus majoring in a Technology Pathway with Coding, Game Design, Virtual Reality, and Web-Design

Work Experience

Mother Pizzeria - Busser - 2023-Present
